Skill Levels

The star (★) or stars. (★★ or ★★★) after each pattern number help you choose the pattern suited to your ability.

★ **Beginner:** Basic stitches and finishing methods, simple shaping, how to change colors and introduction to embellishment.

★★ **Intermediate:** More pattern stitches or embellishment, working with additional color changes and shaping techniques.

★★★ **Advanced:** Intricate patterns, involved construction methods and higher level of concentration.

P The letter **P** after any star grouping suggests that an additional degree of **patience** is required.

Stiffening Solutions

For strongest results we recommend the use of a commercial lace stiffener or fabric draping liquid. There are many different brands available today. Check your local craft shop to see what is available in your area.

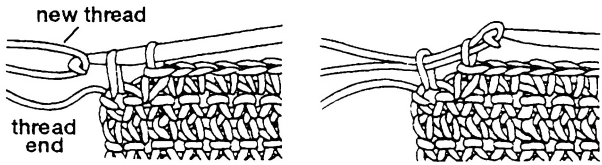
You may wish to use the traditional sugar solution. Pour 1 part boiling water over 1 part white granulated sugar in a small pan. Return to heat and bring to a fast boil stirring constantly until all sugar is dissolved. Mixture must be clear. Dip crochet directly in cooled solution.

Regular starch solutions are not recommended for any of the projects in this book.

Helpful Hints

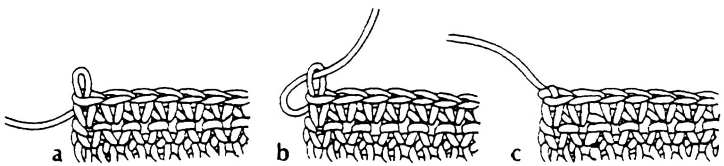
Joining Thread

Always join thread at the end of a row. Crochet up to, but not including, the last step of the stitch; two loops will remain on the hook **(a).** With new thread, complete the stitch by drawing a loop of new thread through the two loops on the hook **(b).** To change colors, use next color for step **b.**



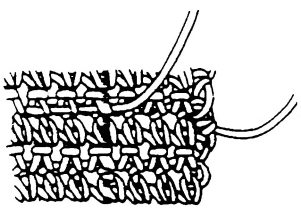
Securing Thread End

To secure the thread end, cut the thread 6 inches (15 cm) beyond the last stitch **(a).** Draw thread end through the loop **(b).** and pull up tight **(c).** Finish thread ends by weaving them into the stitches.



Finishing Thread Ends

After the project is completed, weave all thread ends into a seam (if there is one). Using a large, blunt-pointed needle and avoiding open or lacy areas, weave the thread into the wrong side of the work for about 1 1/2 inches (4 cm). Slightly stretch the area where the weaving was done. Weave the thread end 3/4 inch (2 cm) back on itself. Trim end close to work. For two thread ends close together, weave in opposite directions. Make sure ends do not show on right side of project.



Blocking

Place completed work on a large, well-padded, flat surface. Stretch to measurements specified in directions. Use rust-proof pins to hold in place. Fold extra-large pieces (such as bedspreads) in half with right sides together and stretch to one half the specified measurements. Dampen acrylics with a mister or cover with damp cloth. **DO NOT PRESS.** Steam cotton or wool lightly through damp cloth. Leave pinned in position until thoroughly dry. Repeat above directions if necessary. **Ribbing is never blocked.** For a smoother finish, motifs or each piece of a garment can be blocked before sewing together.
